SUMMARY

Recent IT graduate from Brigham Young University–Hawaii and AWS Certified Cloud Practitioner. I enjoy working with technology, solving problems, and learning new skills. Through my coursework, projects, and internships, I've gained experience with AWS, Linux, Python, SQL, Tableau, and technical support. I'm currently looking for opportunities in cloud, IT, or support-related roles.

EDUCATION

Bachelor of Science in Information Technology

2022 – 2026

Brigham Young University - Hawaii, Laie, HI, USA
Minors in Visual Arts and Supply Chain, Operations,
and Analytics

CERTIFICATIONS

AWS Certified Cloud Practitioner Certificate

Dec 08, 2025

TECHNICAL SKILLS

- AWS (EC2, S3, IAM, Lambda, CloudFormation, SNS, SQS)
- Linux, Windows, System Administration
- Python, SQL, Java
- Tableau, Power BI, Excel (Pivot Tables, VLOOKUP)
- Database Management
- Technical Troubleshooting & Customer Support
- English, Mandarin, Malay, Cantonese, Tagalog

PROJECTS

Campus Event Connect | AWS Cloud Project

- Designed a cloud-based event management platform to support event, RSVP, and user management.
- Configured AWS IAM for access control, Amazon S3 for storage, Amazon EC2 for application hosting, and Amazon CloudWatch for monitoring and troubleshooting.
- Applied cloud computing, system administration, and troubleshooting skills while implementing secure and scalable cloud solutions.

EXPERIENCE

Brigham Young University–Hawaii — Laie, HI, USA

Technical Specialist & Data Analyst / HUB Associate | Nov 2022 – Apr 2026

Data Analysis & Technical Support

Jul 2024 – Apr 2026

- Domo, SQL, Excel, and Tableau dashboards for operational insights.
- Managed departmental websites through Brightspot CMS and administered Anthology Engage.
- Resolve technical issues and support digital operations.

Customer & Technical Support | HUB Associate

Nov 2022 – Sep 2024

- Provided customer support through phone, in-person, and online ticketing systems.
- Assisted students with PCs, gaming consoles, and AV equipment.
- Troubleshoot hardware/software issues, POS systems, computers, and basic networking.

Marketing Data Analyst | Polynesian Cultural Center

Jan 2026 – April 2026

- Helped design a centralized Power BI dashboard that combined marketing and advertising data from multiple sources into a single reporting platform.
- Met with stakeholders across departments to gather reporting requirements and identify data challenges.
- Analyzed ticket sales, promo code usage, discounts, and product performance to provide business insights.
